RESEARCH PROPOSAL

Details :-

Name -> *Arun Chaudhary*

Class -> *MCA 1st Semester*

Department -> *Department Of Computer Science , AMU*

Contact -> *9761079015 , 6396401281*

E-mail ID -> *arunkhw1998@gmail.com*

Academic Background :-

Schooling -> *I had done my 10th and 12th class from Brilliant public School , Aligarh .*

Graduation -> *I have done B.Sc Hons. (Statistics) from AMU in 2020.*

- *Presently , I m in 1st semester of MCA program , conducted by the Dept. Of CS , AMU.*

Achievements :-

- *Winner of university based merit scholarship in 2017 , after qualifying the exam which is conduted by the AMU.*
- *Captain of volleyball team , NRSC hall , AMU.*

Likes & Interest :-

- I like to do the new things , and always enthusiastic to look out the uncommon things .
- Specially focus on the small things , because big things can be identified easily , but small things are important too .
- Computers always attracts me .
- I also like to do the coding because , you always have a new solution and new point of view for the same problem .
- Along with them , I am also a sportsperson , because health is also play a important role in your life .
- I am trying to do things in best way , and the most important thing is doing that thing on time .
- I am a Defence aspirant , so I have good commands on basics of every subject , specially from the science background .

Why you choose me ? :- { Fresher }

- As you know , I am new in coding but that doesn't mean , it is new to me . I know about this before in my graduation after learning "C-language " , a little bit .
- I am good in Statistics , and know tools and techniques to do the things efficiently and effectively .
- I know how to tackle , complicated situations , so I will always be ready to take the HEAT .
- Good in representation , and no stage fear .

How can I contribute to the project ? :-

- As you know statistics can be use in every field , so this will be my responsibility to make sure that our project will be more reliable and effective .
- I am doing work in very innovative manner , so no one gets bore from me .

Strength :-

- Creative
- Multitasking
- Leadership Qualities
- Good Learner
- Determined towards work
- Discipline
- Time punctual
- Ability to change the environment

Commitment Level :-

As I already told you that , I am committed towards work . So , it means anything comes after the work .

So , because of this you can assume my commitment level .

One more thing , I am that kind of a person who wants that my work will tell the audience about me and my team , not our words .

Project Recommendations :-

I seriously said , there is no source from my side for the recommendation of our project . But one of my cousin brother is already a data scientist , so he can help us or give some suggestion regarding our problem .

Thanks a lot , for reading this !!
